

Trondheim Katedralskole

... focuses on **knowledge**

This means that our school shall always

- have knowledge and learning as our main focus
- have high academic requirements for our teachers
- facilitate for the continuing education of our staff and the productive sharing of teaching experience
- provide constructive feedback to pupils and staff
- welcome constructive feedback from pupils and staff

... inspires **commitment** and **respect**

This means that we shall always have

- a tolerant and open environment where all show mutual respect
- dedicated teachers and administrators who motivate pupils and colleagues to do their best
- a proactive approach to innovative learning and teaching

... values **quality** in everything we do

This means that at our school

- pupils and teachers will always know what is expected of them and always strive for the highest professionalism
- all employees and pupils are expected to be loyal and to comply with the school's regulations
- the lines of communication will be clear and effective
- we shall have a positive, clean and healthy physical environment that promotes well-being

... preserves and promotes **culture**

This means that we shall

- be aware of our history and the historical significance of our school, where tradition and innovation thrive side by side
- promote culture and art in our day-to-day affairs
- maintain and develop contact with cultural and educational institutions in Norway and abroad
