2 20:17 Information from the students; Roy, Sigrd

Operasjon dagsverk-day has been arranged, charity against pollution in Nigeria. Most students had jobs, 46 students met in school and had an alternative programme. The contributions have been paid via net, so there has not been any hassle with cash. Visiting students have been in the school lately. A theme-week is being organized, the first day being pink-day.

3 21:17 Information from the headmaster; Hilde

Legionella has been found in the schools' showers, they are closed until cleaning has been proven successful. Students with fever, decreased general condition and respiratory symptoms, should contact their general practitioner and inform the doctor about the findings of legionella in the school. Students with cough which last more than two weeks should do the same.

Dressing rooms should not be used as dining halls or living rooms. New furniture is being bought to create social rooms in more appropriate locations, which satisfy the fire instructions.

There will not be arranged "speed-dating" between parents/students and teachers any more. The school offers meetings between parents/students and teachers when needed.

4 22:17 Accounts; Grethe

30 persons have contributed with kr.12 000,- for the students' activities. The contributions are smaller than the two previous years.
